Dear Mac,

Thank you ever so much for your succinct and appropriate comments on my draft SALT presentation. I think you have hit the nail right on the head in suggesting that I should bring out better what the consequences for monitoring would be in the absence of a SALT agreement. I will regroup and bring that thought right in at the beginning.

Again, I really appreciate your taking the time in your last days before leaving the Foundation to put these thoughts down. Have a good vacation. I'll call on you after mid-July if I can ever get my head out from the SALT mine!

Thanks again.

Yours,

STANSFIELD TURNER
